

Left To Right: Chief Jeff lance, Chief Dean Floyd, Matt Holden (Windstream), Gene Hobgood (Mayor) & Priscilla Bridges (Cherokee County 911 Assistant Director)

The City of Canton is taking new steps to help residents with Special Emergency Phones that are strategically placed in Heritage & Boling Park. These phones are highly visible, easy to use and gives the public a greater sense of security. As a City we continue to do all we can to make sure the city's parks remain safe places for recreation and relaxation for the many residents and visitors who use our great public spaces. The phones work when the user picks up the phone. The telephone automatically dials 911 and is answered by the 911 operators. Quick and effective communication is imperative in an emergency situation. These new phones represent an additional public safety measure to ensure that our parks provide a safe and enjoyable environment for residents and visitors.
