

During the month of October, Canton Fire Department visited 13 schools/day cares in order to teach fire safety education. These classes were conducted using our Fire/Weather Safety House and Charity (our Dalmatian). Along with these teaching tools we were able to pass-out fire safety education material, such as coloring books, book markers with Charity's picture and the message STOP DROP and ROLL, Canton Fire Department pencil with a novelty eraser and other items. The following is a list of the schools/day cares we visited;
