

Effective March 31 residents are required to place leaves and call to request a pick-up. Waste Management will continue to pick up bagged leaves, they require that all leaves and grass clippings be placed in biodegradable bags or in a separate container labeled "Yard Waste." Waste Management will pick these up on your normal scheduled pick up day. The City of Canton will resume our leaf pick-up in the Fall. Please remember to limit your brush piles. We will run our routes twice a week. A work order for pick-up can be placed by calling the City of Canton Public Works Department at 770-720-7674.
